## SUBJECT INDEX

### A

- Addiction
  - recovery for low-income pregnant and parenting women, 81-89
  - retroductive model of pathway to chemical dependency in nurses, 59-65
  - treatment models for clients with comorbid mental disorders and, 71-80
- Advanced practice nursing, psychiatric-mental health
  - dilemma of role as nurses or as mental health providers (Editorial), 69-70
  - genetics and alcoholism, implications for practice by, 154-161
  - inquiry-based learning and critical thinking in graduate program for, 169-175
  - psychiatric clinical nurse specialist/nurse practitioner (CNS/NP) role, 311-318
  - role of education in increasing popularity of as a profession, 319-325
- Aggression
  - culture of caregiving and, in psychiatric settings, 21-31
- Alcohol abuse
  - addiction recovery for low-income pregnant and parenting women, 81-89
  - genetics and alcoholism, implications for nursing practice, 154-161
  - treatment models for clients with co-occurring addictive and mental disorders, 71-80
- Alzheimer's disease
  - communication patterns between caregivers and their spouses with, 202-208
- Amnestic disorder
  - benzodiazepine-induced persisting, in older adults, 119-125
- Anorexia nervosa
  - comparison of inpatient and outpatient women with, 181-194
- auditory hallucinations
  - instruments of assessment for, 255-263

### B

- Becoming, process of
  - addiction recovery for low-income pregnant and parenting women, 81-89
- Benzodiazepines
  - persisting amnestic disorder induced by, risk of in older adults, 119-125
- Brain disorder
  - mental illness as a (Editorial), 1-2
- Bulimia nervosa
  - comparison of inpatient and outpatient women with, 191-194

### C

- Career choices
  - role of education in increasing the popularity of psychiatric nursing, 319-325

- Caregivers, family
  - communication patterns with spouses with Alzheimer's disease, 202-208
- Caregiving
  - culture of, and aggression in psychiatric settings, 21-31
- Certification
  - of advanced practice psychiatric-mental health nurses, concerns about (Editorial), 69-70
- Chemical dependency
  - in nurses, retroductive model of pathway to, 59-65
- Child development
  - effects of postpartum depression on, 12-20
- Child psychiatry
  - creating thoughtful research agendas, 3-11
  - use of restrictive interventions in, 95-106
- Children
  - effects of mother's postpartum depression on development of, 12-20
  - homeless, risk of mental health problems and resiliency in, 50-58
- Choices
  - shift from nurture to nature theories (Editorial), 179-180
- Chronic mental illness
  - in elderly in nursing homes, 131-139
- Clinical nurse specialist/nurse practitioner
  - psychiatric, example of combined role, 311-318
- Co-occurring addictive and mental disorders
  - treatment models for clients with, 71-80
- Codependency
  - and depression in women, 326-334
  - assessment tool for, 264-272
- Collaborative research
  - advantages and disadvantages, 241-246
- Communication
  - between caregivers and their spouses with Alzheimer's disease, 202-208
- Countertransference
  - analysis of concept of, 273-281
- Critical thinking
  - in advanced practice psychiatric nursing program, 169-175
- Culture, organizational
  - of caregiving and aggression in psychiatric settings, 21-31

### D

- Depression
  - and codependency in women, 326-334
  - maternal, and homeless children's mental health, 50-58
  - measuring in hospitalized, medically ill, older adults, 209-218
  - postpartum, effects on child development, 12-20
  - symptom reversal for women in primary care setting, 247-254
- Distance education technology
  - teaching graduate psychiatric-mental health nursing with, 227-233
- Drugs, illicit

- addiction recovery for low-income pregnant and parenting women, 81-89
- retroductive model of pathway of nurses to chemical dependency, 71-80
- treatment models for clients with co-occurring addictive and mental disorders, 71-80

## E

- Eating disorders
  - comparison of inpatients and outpatient women with, 181-194
- Education, advanced practice psychiatric nursing
  - inquiry-based learning and critical thinking in, 169-175
  - role in increasing popularity of psychiatric nursing as a profession, 319-325
  - teaching with distance education technologies, 227-233
- Education, patient
  - perseverance in, 107-113
- Elderly patients, *see also* Older adults
  - chronically mentally ill, in nursing homes, 131-139
  - communication between caregivers and their spouses with Alzheimer's disease, 202-208
  - elder concerns about memory scale, 148-153
- Engulfment
  - measuring impact of schizophrenia on self-concept, 41-49
- Enjoyment
  - promoting self-belief and, through work rehabilitation, 344-350
- Ethical issues
  - video monitoring patients in seclusion and restraint, 90-94

## F

- Families, of patients
  - caring for relatives with serious mental illness at home, 288-294
  - family perspective on professional-family interactions, 140-147
  - harm done to by practitioners blaming families for patient's mental illness (Letter), 352-353
  - rooming in program, 219-226
  - rural, as resources for mentally ill family member, 219-226

## G

- Genetics
  - alcoholism and, implications for nursing practice, 154-161
- Geriatrics, *see* Elderly patients and Older adults

## H

- Hallucinations
  - auditory, instruments of assessment for, 255-263

- Hendrix, Melva Jo
  - In Memoriam, 128
- History
  - reported experiences of women hospitalized for mental illness from 1840 to 1945, 301-310
- Home care
  - caring for relatives with serious mental illness at home, 288-294
- Homelessness
  - maternal depressive symptoms and children's mental health, 50-58
- Homosexuality
  - comparison of heterosexual and homosexual long-term sexual relationships, 114-118
- Hospitalization
  - comparison with outpatient care for women with eating disorders, 181-194
  - measuring depression in medically ill, older adults, 209-218
  - reported experiences of women from 1840 to 1945 compared with those of current patients, 301-310
  - rooming in program for families to care for mentally ill relative in a general, 219-226
- Hospitals
  - culture of caregiving and aggression in psychiatric settings, 21-31

## I

- Inpatient care, *see* Hospitalization
- Inquiry-based learning
  - in advanced practice psychiatric nursing program, 169-175
- Insight
  - conceptualization and measurement of, 32-40
- Insurance coverage, for mental health
  - perils of parity and privatization (Editorial), 129-130
- Interactive television
  - use in teaching graduate psychiatric-mental health nursing, 227-233

## L

- Lesbians
  - comparison of heterosexual and homosexual long-term sexual relationships, 114-118
- Low-income clients
  - addiction recovery for pregnant and parenting women, 81-89

## M

- Managed care
  - perils of parity and privatization (Editorial), 129-130
- Medicaid
  - perils of parity and privatization (Editorial), 129-130
- Medical illness

- measuring depression in older adults hospitalized for, 209-218
- Medications
  - benzodiazepine-induced persisting amnesic disorder in older adults, 119-125
- Memory
  - benzodiazepine-induced persisting amnesic disorder in older adults, 119-125
  - developing the elder concerns about memory scale, 148-153
- Mental health care
  - comparison of patients' reported experiences from 1840 to 1945 with those of current patients, 301-310
  - concerns about the safety net (Editorial), 239-240
  - perils of parity and privatization (Editorial), 129-130
- Mental illness
  - as a brain disorder (Editorial), 1-2
  - chronic, in elderly in nursing homes, 131-139
  - phenomenological inquiry into being mentally ill, 195-201
  - self-induced water intoxication and severity of psychiatric symptoms, 335-343
  - shift from nurture to nature theories (Editorial), 179-180
  - treatment models for clients with co-occurring addiction and, 71-80
- Monitoring, video
  - ethical considerations, with patients in seclusion and restraint, 90-94
- Mothers
  - addiction recovery for low-income pregnant and parenting women, 81-89
  - effects of postpartum depression on child development, 12-20
  - homeless, depressive symptoms of, and children's mental health, 50-58

## N

- Narrative therapy
  - for women who have lived through violence, 162-168
- Nature versus nurture
  - change from nurture to nature theories (Editorial), 179-180
- Nomenclature
  - mental illness as a brain disorder (Editorial), 1-2
- Nurse practitioners, psychiatric
  - psychiatric clinical nurse specialist/NP combined role, 311-318
  - roles of (Letter), 66
- Nurses
  - nurse-patient covenant, imperative to care (Editorial), 299
  - retroductive model of pathway to chemical dependency in, 59-65
- Nursing homes
  - chronically mentally ill elderly in, 131-139

## O

- Older adults
  - benzodiazepine-induced persisting amnesic disorder in, 119-125

- measuring depression in hospitalized, medically ill, 209-218
- Organizational culture
  - caregiving and aggression in psychiatric settings, 21-31
- Outpatient care
  - comparison of inpatient and outpatient women with eating disorders, 181-194

## P

- Parenting
  - addiction recovery for low-income pregnant and parenting women, 81-89
  - effects of postpartum depression on child development, 12-20
- Parity
  - perils of (Editorial), 129-130
- Patient education
  - perseverance in, in psychiatric nursing, 107-113
- Perseverance
  - in patient education in psychiatric nursing, 107-113
- Phenomenological studies
  - being mentally ill, 195-201
- Postpartum depression
  - effects on child development, 12-20
- Pregnancy
  - addiction recovery for low-income pregnant women, 81-89
- Primary care setting
  - depressive symptom reversal for women in, 247-254
- Privatization
  - perils of (Editorial), 129-130
- Professional issues
  - psychiatric nurses as nurses versus mental health providers (Editorial), 69-70
  - role of education in increasing popularity of psychiatric nursing, 319-325
- Psychiatric clinical nurse specialist/nurse practitioner
  - example of a combined role, 311-318
- Psychiatric nurse practitioners
  - roles of (Letter), 66
- Psychiatric nursing, *see* Advanced practice nursing
- Purposeful activity
  - for people with enduring mental health problems, 282-287

## R

- Research, psychiatric
  - collaborative, advantages and disadvantages of, 241-246
  - creating thoughtful agendas for, 3-11
- Resiliency
  - in homeless children at risk for mental health problems, 50-58
- Restraints
  - ethics of video monitoring patients in seclusion and, 90-94
  - reconsidering use of in children, 95-106
- Restrictive interventions
  - reconsidering use of in children, 95-106
- Retroductive theoretical model
  - of pathway to chemical dependency in nurses, 59-65
- Risk factors

- maternal depression and homeless children's mental health, 50-58
- Rooming in program
  - families care for mentally ill family member in a general hospital, 219-226
- Rural families
  - as resources for family members who are mentally ill, 219-226

## S

- Safety nets
  - concerns about, in mental health care (Editorial), 239-240
- Schizophrenia
  - assessment of auditory hallucinations, 255-263
  - conceptualization and measurement of insight in, 32-40
  - measuring the impact on an individual's self-concept, 41-49
- Seclusion
  - ethics of video monitoring patients in, 90-94
- Self-belief
  - promoting through work rehabilitation, 344-350
- Self-concept
  - measuring impact of schizophrenic illness on, 41-49
- Sexual abuse, childhood
  - effect on heterosexual compared with homosexual long-term sexual relationships, 114-118
- Sexual assault
  - narrative therapy for victims of, 162-168
- Sexual relationships
  - comparison of heterosexual and homosexual long-term, 114-118
- Spouses
  - communication between caregivers and their spouses with Alzheimer's disease, 202-208
- Staff beliefs
  - culture of caregiving and aggression in psychiatric settings, 21-31
- Students, undergraduate nursing
  - role of education in increasing the popularity of psychiatric nursing as career choice for, 319-325
- Substance abuse
  - addiction recovery for low-income pregnant and parenting women, 81-89
  - in nurses, retroductive model of pathway to dependency, 59-65

- treatment models for clients with co-occurring addictive and mental disorders, 71-80

## T

- Telecommunications
  - use in teaching graduate psychiatric-mental health nursing, 227-233
- Television, *see* Interactive television
- Treatment models
  - for clients with co-occurring addictive and mental disorders, 71-80

## V

- Video monitoring
  - of patients in seclusion and restraint, ethics of, 90-94
- Violence
  - culture of caregiving and aggression in psychiatric settings, 21-31
  - narrative therapy for women who have lived through, 162-168

## W

- Water intoxication
  - self-induced, and severity of psychiatric symptoms, 335-343
- Women, *see also* Mothers
  - codependency assessment tool, 264-272
  - comparison of heterosexual and homosexual long-term sexual relationships, 114-118
  - depression and codependency in, 326-334
  - depressive symptom reversal for, in primary care setting, 247-254
  - narrative therapy for victims of violence, 162-168
  - with eating disorders, comparison of inpatient and outpatient, 181-194
- Work rehabilitation
  - promoting enjoyment and self-belief through, 344-350
  - purposeful activity for people with enduring mental health problems, 282-287
